

**FEATURES:**

- I/O Isolation 3000VAC
- Operating Temp: -40 °C to +80 °C
- Input: 90-305VAC, 47-440Hz, or 130-430VDC
- Over Load, Over Voltage, Short Circuit Protection
- RoHS Compliant
- Energy Star Compliant
- Efficiency up to 83%
- Soft Start

**Models**  
Single output

| Model         | Input Voltage (VAC/Hz) | Input Voltage (VDC) | Temperature range (°C) | Output Voltage (V) | Output Current max (A) | Maximum capacitive Load (µF) | Efficiency (%) |         |         |
|---------------|------------------------|---------------------|------------------------|--------------------|------------------------|------------------------------|----------------|---------|---------|
|               |                        |                     |                        |                    |                        |                              | 115 VAC        | 230 VAC | 277 VAC |
| AMEL10-3.3SAZ | 90-305/47-440          | 130-430             | -40 to +80             | 3.3                | 3.00                   | 2200                         | 69             | 70      | 70      |

Note: Optional mounting plate version can be ordered by adding “-ST” suffix to part number (ex. AMEL10-5SAZ-ST)

**Input Specifications**

| Parameters                       | Conditions                 | Typical | Maximum | Units |
|----------------------------------|----------------------------|---------|---------|-------|
| Current (full load)              | 115 VAC                    |         | 230     | mA    |
|                                  | 230 VAC                    |         | 150     | mA    |
|                                  | 277 VAC                    |         | 140     | mA    |
| Inrush current <2ms (cold start) | 115 VAC                    |         | 20      | A     |
|                                  | 230 VAC                    |         | 35      | A     |
|                                  | 277 VAC                    |         | 50      | A     |
| Leakage current                  |                            |         | 0.25    | mA    |
| External fuse                    | Recommended slow blow type | 1       |         | A     |
| Input dissipation                | (110/230/277 VAC)          | ≤0.2    |         | W     |
| Start-up time                    |                            | 50      |         | ms    |

**Output Specifications**

| Parameters                   | Conditions    | Typical | Maximum | Units     |
|------------------------------|---------------|---------|---------|-----------|
| Voltage accuracy             |               | ±2      |         | %         |
| Line regulation              |               | ±1      |         | %         |
| Load regulation              | 0-100% load   | ±2      |         | %         |
| Transient recovery time      |               | 500     |         | µs        |
| Transient response deviation | 25% load step | ±2      |         | % of Vout |
| Ripple & Noise*              | 3.3/5V models | 75      |         | mV p-p    |
|                              | 12/15V models | 100     |         | mV p-p    |
|                              | 24V models    | 150     |         | mV p-p    |
| Hold-up time                 |               | 15      |         | ms        |

\* Ripple and Noise are measured at 20MHz bandwidth & 230VAC by using a 0.1µF (M/C) and 47µF (E/C) parallel capacitor.

**Isolation Specifications**

| Parameters           | Conditions | Typical | Rated | Units |
|----------------------|------------|---------|-------|-------|
| Tested I/O voltage   | 60 sec     |         | 3000  | VAC   |
| Isolation Resistance |            | >1000   |       | MΩ    |

**General Specifications**

| Parameters              | Conditions | Typical           | Maximum | Units |
|-------------------------|------------|-------------------|---------|-------|
| Switching frequency     |            | 66                |         | KHz   |
| Over load protection    | Foldback   | 130               |         | %     |
| Over voltage protection |            | Zener Diode Clamp |         |       |

|                          |  |                            |        |
|--------------------------|--|----------------------------|--------|
| Short circuit protection | Auto recovery  |                            |        |
| Operating temperature    | With derating over 60°C  | Refer to model application | °C     |
| Storage temperature      |  | -40 to +95                 | °C     |
| Maximum case temperature |  | 100                        | °C     |
| Temperature coefficient  |  | ±0.02                      | % / °C |
| Cooling                  | Free air convection  |                            |        |
| Humidity                 | Non condensing   | 20 ~ 95                    | % RH   |
| Case material            | Plastic (flammability to UL 94V-0)   |                            |        |
| Weight                   |  | 70                         | g      |
| Dimensions (L x W x H)   | 56.48 x 30.86 x 25.10mm (2.22 x 1.21 x 0.99inches)   |                            |        |
| MTBF                     | > 400 000 hrs (MIL-HDBK -217F, t=+25°C)/ Full Load<br>> 100,000 hrs (MIL-HDBK -217F, t=at highest operating temperature)/Full Load |                            |        |

NOTE: All specifications in this datasheet are measured at an ambient temperature of 25°C, humidity<75%, nominal input voltage and at rated output load unless otherwise specified.

### Environment Approval

| Test      | Parameters             | Conditions                                       |
|-----------|------------------------|--|
| Shock     | Wave form              | Half sine wave                                   |
|           | Acceleration amplitude | 5gn  |
|           | Bump duration          | 30 ms  |
|           | Converter operation    | before and after test, body mounted (on chassis) |
|           | Number of bumps        | 18 (3 in each direction for every axis)          |
| Vibration | Test mode              | Sweep sine                                       |
|           | Displacement           | 1mm  |
|           | Acceleration           | 3g   |
|           | Converter operation    | 10-100Hz, speed 0.05Hz/s                         |

### Safety Specifications

| Parameters       |  |  |
|------------------|--|--|
| Agency approvals | cULus, CE, CB                              |  |
| Standards        | Information technology Equipment           | EN 60950-1:2006+A11:2009                         |
|                  | EMI - Conducted and radiated emission      | EN55022, class B                                 |
|                  | Harmonic Current Emissions                 | IEC/EN 61000-3-2, Class A                        |
|                  | Voltage fluctuations and flicker           | IEC/EN 61000-3-3, (EN60555-3)                    |
|                  | Electrostatic Discharge Immunity           | IEC 61000-4-2, Contact ±4KV/Air ±8KV, Criteria A |
|                  | RF, Electromagnetic Field Immunity         | IEC 61000-4-3, 3V/m, Criteria A                  |
|                  | Electrical Fast Transient/Burst Immunity   | IEC 61000-4-4, ±1KV, Criteria A                  |
|                  | Surge Immunity                             | IEC 61000-4-5, ±1KV, Criteria A                  |
|                  | RF, Conducted Disturbance Immunity         | IEC 61000-4-6, 3Vrms, Criteria A                 |
|                  | Power frequency Magnetic Field Immunity    | IEC 61000-4-8, 1A/m, Criteria A                  |
|                  | Voltage dips, Short Interruptions Immunity | IEC 61000-4-11                                   |
|                  | Information Technology Equipment           | UL 60950-1:2007                                  |
|                  | Information Technology Equipment           | CAN/CSA-C22.2 No.60950-1-07                      |

### Additional Surge Protective Circuitry

The AMEL10-AZ series design level surge protection is certified to IEC 61000-4-5 surge Line to Line of 1KV. However greater protection can be enhanced by adding protective devices to ingress circuitry. For example, by adding an MOV (Metal Oxide Varistor) device example S14K320E2 to the N / L input lines 2KV surge protection or greater, can be achieved.

| MOV PN    | Vrms<br>V | Vdc<br>V | Wmax (2ms)<br>J | Pmax<br>W |
|-----------|-----------|----------|-----------------|-----------|
| S14K320E2 | 320       | 420      | 136             | 0.6       |

### Pin Out Specifications

| Pin | Single       |
|-----|--------------|
| 1   | AC Input (L) |
| 2   | AC Input (N) |
| 3   | +V Output    |
| 4   | -V Output    |
| 5   | No pin       |

### Derating

**Dimensions**
