

AMSR2-JZ

Aimtec introduces the new AMSR2-78JZ, a 2A Switching Regulator which is designed to be a plug and play alternative to the traditional 78xx series three-terminal linear regulators.

The series features an ultra-wide input voltage range of 6-36V, 0.1mA ultra-low no load input current, continuous short-circuit protection, low ripple noise (typ.: 30mV) and much more.

The new 2A series has operating temperature from -40°C to +85°C, meets EN62368 standard (Pending) and has delivers efficiencies up to 95%, eliminating the need for a heat sink and cutting additional design space and installation cost. This series is suitable for use in applications such as industrial controls, medical, mining, railway and other related industries.

Features

- Input Voltage up to 36V
- Operating Temp: -40 °C to +85 °C
- Ultra-low no load input current: 0.1mA typ.
- Low ripple & noise, 30mV typ.
- Continuous Short Circuit Protection
- Design to meet EN62368
