Effective Date: All specified product series noted, and shipping from Aimtec factories as of January 2nd 2015.

Description of change: Aimtec is announcing product packaging changes which will adjust MPQ (multiple purchase quantity) as plastic tube changes will require adjustments in shipping unit quantities per tube. As of January 2nd 2015 all MPQ quantities noted in this PCN notice will be in effect.

As such, all orders placed prior to December 1st 2014 will be filled with the existing (old) MPQ values. Any orders place to Aimtec as of December 1st 2014 will be based on the new MPQ values as indicated. Aimtec customer service will work to correct any customer order affected by this change, however we expect little to no customer impact. An updated distributor price list will be sent in parallel with this PCN to reflect MPQ changes.

Reason for change: Aimtec product management will be changing the length of its plastic tubes which contain power converter and LED driver products during shipment. The change is necessary as the existing packaging supplier is being discontinued.

Customer Impact: There are no functional product changes announced as a result of this PCN. The nature of the notice is based only on changes to product packaging, and MPQ values.

Sincerely

Bissa Dobрева
Product Manager
